1 General HIOB website information

Do not tell anybody your HIOB website user password; saved information is stored with a time stamp and who stored the information. So, always sign in (see 4) with your own / private user account and logout after finishing the session (see 5.7).

If you create your account (see 3) or you change your personal data (see 5.2), be sure to type in your correct email address. Every email alert will be sent to this email address.

Generally, fields in the website which are signed with a *, are mandatory fields and need to be filled out. Otherwise, it is not possible to proceed / save information.

On mostly every page is a “Save and exit” button which is be used, to save changes and exit the current page. If information should not be saved, exit the page by clicking “Exit without saving”.

If information is stored once, the content could not be edit anymore. Therefore, the appendix / photo documentation information is displayed in read only mode and it is shown, who is responsible for the content.

You can find on every page on the upper left corner a “Help” and “Logout” button, which open the help form (see 5.6) or logs you out from the website (see 5.7).

It is also recommended to fill out appendices and photo documentations in the right order, otherwise, error messages will occur (see 5.12 and 5.15).

For the photo documentation only pictures smaller than 5 MB (megabyte) and in JPG / JPEG (joint picture expert group) format can be uploaded successfully (see 5.15).

It is recommended to use Mozilla Firefox 25.0.1 or higher. Microsoft Internet Explorer 8 or higher and Google Chrome 31.0 or higher can also be used. For the last two browsers problems can occure during uploading the photodocu.

Do not enter comma values in free text fields – it is only possible to save integer values.

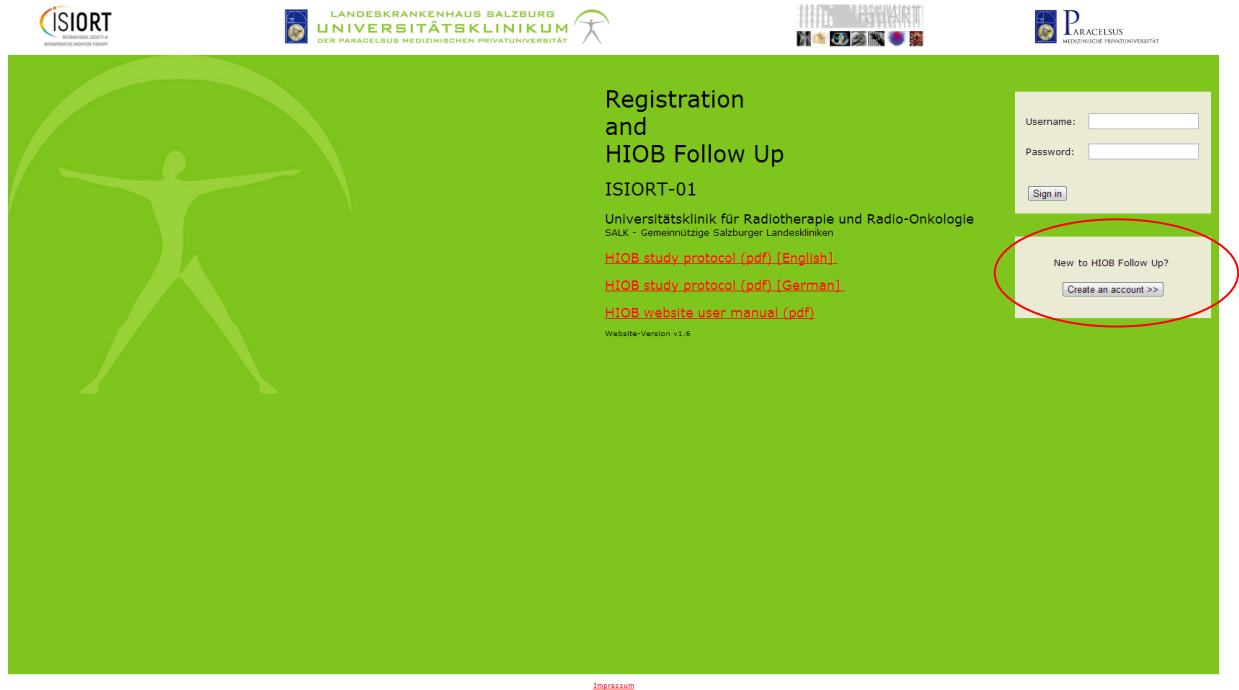

The newest version of the website user manual is available for downloading on the login page (see 2 and 4).

It is required to use the website just in one tab of the internet explorer. Open it in a second tab, or more, leads to errors during entering patient data.

A hiob test site can be found here: <https://www.salk.at/hiobtest> On this site you can use all functionalities from the study site, create patients, exclude patients, ...

2 Registration

If you are not yet registered on the website, please create your own user account.

The screenshot shows the 'User' registration form on the HIOB website. The form is titled 'User' and contains the following fields and buttons:

- Username: *** (circled in red)
- Title:** (dropdown menu with 'if not listed' option)
- Firstname: ***
- Lastname: ***
- Phone number: ***
- Emailaddress: ***
- Hospital: *** (circled in red)
- Street:**
- Street number:**
- Zip code:**
- City:**
- Country:**
- insert hospital specific security check *** (circled in red)
- Security test (Captcha) *** (circled in red)
- Save and Exit** (circled in red)
- Exit without saving**

Below the Security test (Captcha) field, there is a green box containing the characters 'x A 4 C U'. Below the form, there is a note: 'After finishing the registration you will receive a confirmation mail with your login data and your initial password!'.

Description:

- **Username**
free selectable – no limitation in length; don't use special characters.
- **Hospital**
Select your predefined hospital
- **Insert hospital specific security check**
The HIOB study responsables gave you an eight character long code – please enter here.
If you don't have this code, contact your hospital HIOB representative.
- **Security test (Captcha)**
Please enter the above visualized characters (case sensitive).

To complete the user registration, check the correctness of all data and confirm by clicking on "Save and Exit". You will receive a login information email in a few minutes containing the initial password. Please change the password after the first login (see chapter 5.1).

5.1 Change user data

The screenshot shows the 'Change user data' form on the HIOB website. The page has a green header with logos for ISIORT, Landeskrankenhaus Salzburg, Universitätsklinikum der Paracelsus Medizinischen Privatuniversität, and Paracelsus Medizinische Privatuniversität. Below the header, there is a green sidebar with a 'Help' and 'Logout' link. The main content area is white and contains the 'Change user data' form. The form has four input fields: 'Username' (containing 'manual'), 'current password', 'new password', and 'confirm new password'. Below the fields are two buttons: 'Save and Exit' and 'Exit without saving'.

After you saved the changes you will receive an email notification – please keep this mail to remind the password.

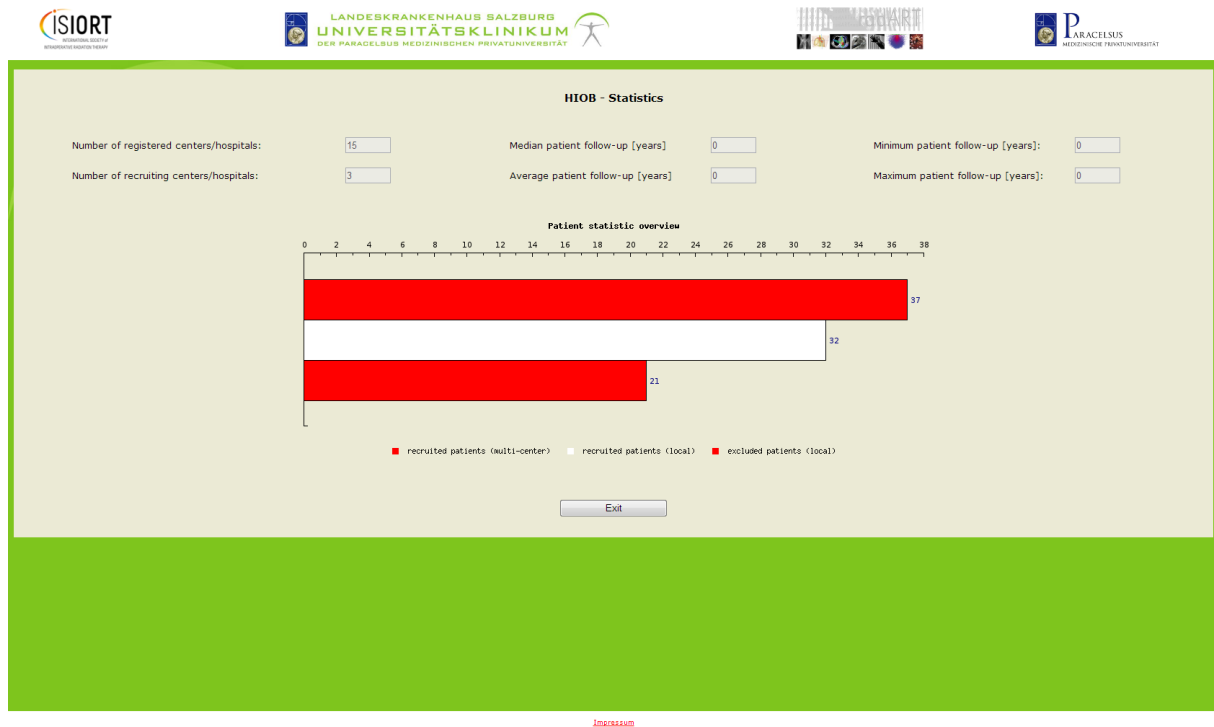

5.2 Change person data

The screenshot shows the 'Change person data' form on the HIOB website. The form is located on the right side of a green page. The page header contains logos for ISIORT, Landeskrankenhaus Salzburg, Universitätsklinikum, and Paracelsus Medizinische Privatuniversität. The main content area is green with a white Vitruvian Man graphic on the left. The form is a white box with the following fields and buttons:

- Title: A dropdown menu with a value of '--' and a link 'if not listed'.
- Firstname: A text input field with the value 'User'.
- Lastname: A text input field with the value 'Manual'.
- Phone number: A text input field with the value '123456789'.
- Emailaddress: A text input field with the value 'manual@hio.at'.
- Buttons: 'Save and Exit' and 'Exit without saving'.

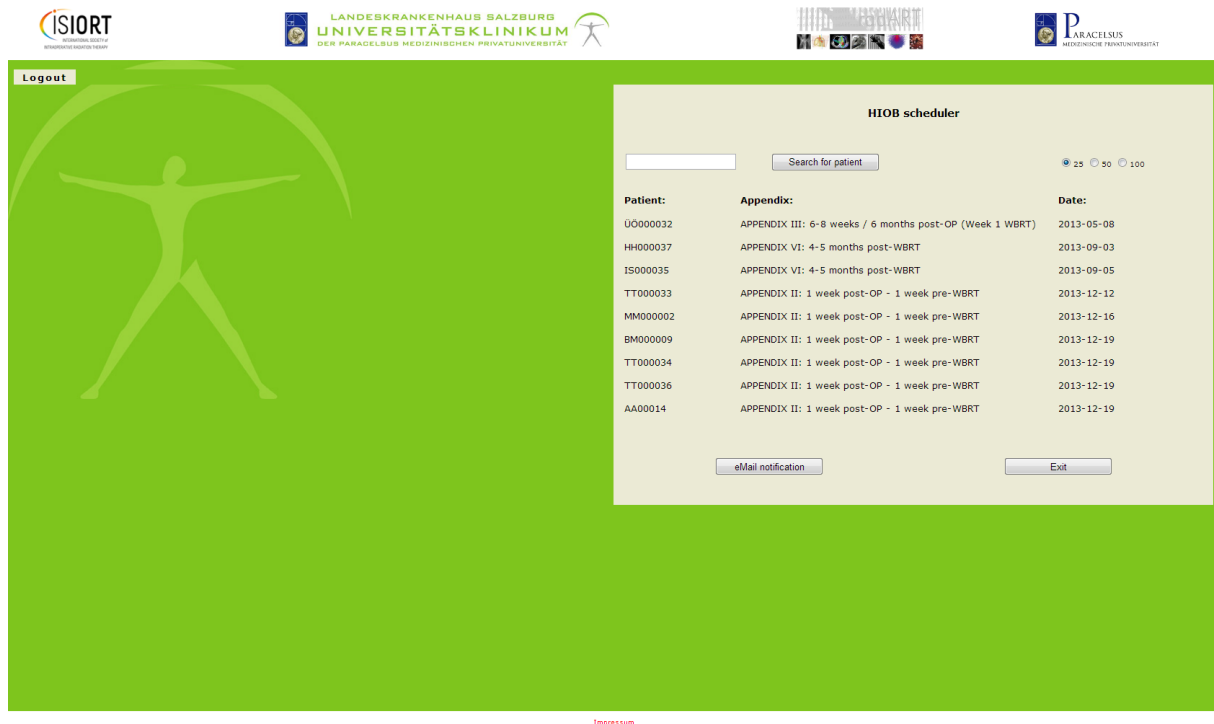

Form to change your person data. To confirm the changes press “Save and Exit”. If you do not want to save the changes click on “Exit without saving”.

5.3 Show diagram

In this form data concerning the number of registered and recruiting hospitals are shown. Further information are given as the median, average min and max patient follow up. In the diagram an overview of all recruited patients (multicentric) to the recruited and excluded patients of the local hospital is shown.

5.4 Calendar

Scheduler for next patient appointments; the radio buttons 25 / 50 / 100 displays the selected number of patients. If you just want to see a specific patient, enter the patient ID (case sensitive) and click on search for patient. A pop-up message will appear with the next appointment for the specific patient. Furthermore, it is possible to send you an email with the next already displayed appointments by clicking on “eMail notification”.

5.5 Overdue Notice

The screenshot shows the 'HIOB overdue notice' web application. At the top, there are logos for ISIORT, Landeskrankenhaus Salzburg Universitätsklinikum, and Paracelsus Medizinische Privatuniversität. The interface has a green sidebar with a 'Logout' button. The main content area is titled 'HIOB overdue notice' and features a table with patient data. Above the table, there are radio buttons for 'list size' with options 25, 50, 100, and 'all'. The table has five columns: Patient, Hospital / Center, Appendix, Photodocumentation, and Cosmetic Score. The data rows show patient IDs, all from 'Universitaetsklinik Salzburg', with various appendix numbers and photodocumentation status indicators. An 'Exit' button is located at the bottom of the table.

Patient:	Hospital / Center:	Appendix:	Photodocumentation:	Cosmetic Score:
BM000009	Universitaetsklinik Salzburg		6 7 8 9 10	X
BM000011	Universitaetsklinik Salzburg			X
BM000013	Universitaetsklinik Salzburg		2	
FS000018	Universitaetsklinik Salzburg		2	
MM000002	Universitaetsklinik Salzburg		1	
SH000010	Universitaetsklinik Salzburg		2 3 4	
SH000012	Universitaetsklinik Salzburg		2 3 4 5 6 7 8 9 10	

Overdue notice can be used to see, which appendix for which patient should be filled out, if the expected date is already gone. Information on missing photodocus or cosmesis score objective are given as well. With the radio buttons it can be choosen, how many patient should be displayed.

HIOB Helpform

Subject:

1000 signs left

Question:

To send an email request to the HIOB administrators, type in the question and click on “Send and Exit”. Please fill out the subject line with the topic of the request and describe the question / error short but detailed, i.e. write down patient IDs if involved, which appendix / photo documentation is affected etc. Only requests in German or English can be processed.

5.7 Logout

To sign in again click on “Sign in again”.

5.8 Search for patient

If the search field is empty and you click on “Search for patient”, all patients of your institute will be displayed. Patients which are excluded from HIOB Study are displayed in red, others in green. To search for a specific patient, type in the patient ID and press “Search for patient”. It is also possible to search for e.g. “a” and every patient with an “a” in the ID is displayed.

If a photodocumentation is missing, it will be displayed in the search result box, by displaying “|--- PhotoDocu ---|” at patient ID.

“|--- CosmScore ---|” indicates a missing objective cosmetic score.

5.9 Create new patient

Create new patient

Firstname: *

Lastname: *

Date of birth: *

Save and Exit Exit without saving

* Data is just used to generate an unique identification key for each patient.
Data will not be stored in database.

First- and lastname of the participant person are just required to generate the study specific patient ID as well as for the email notification and are not stored in the database. If the patient's birth date is not within the study guidelines, the process can't be successfully finished. After saving the data you will receive an email – keep it to remember the ID of every patient.

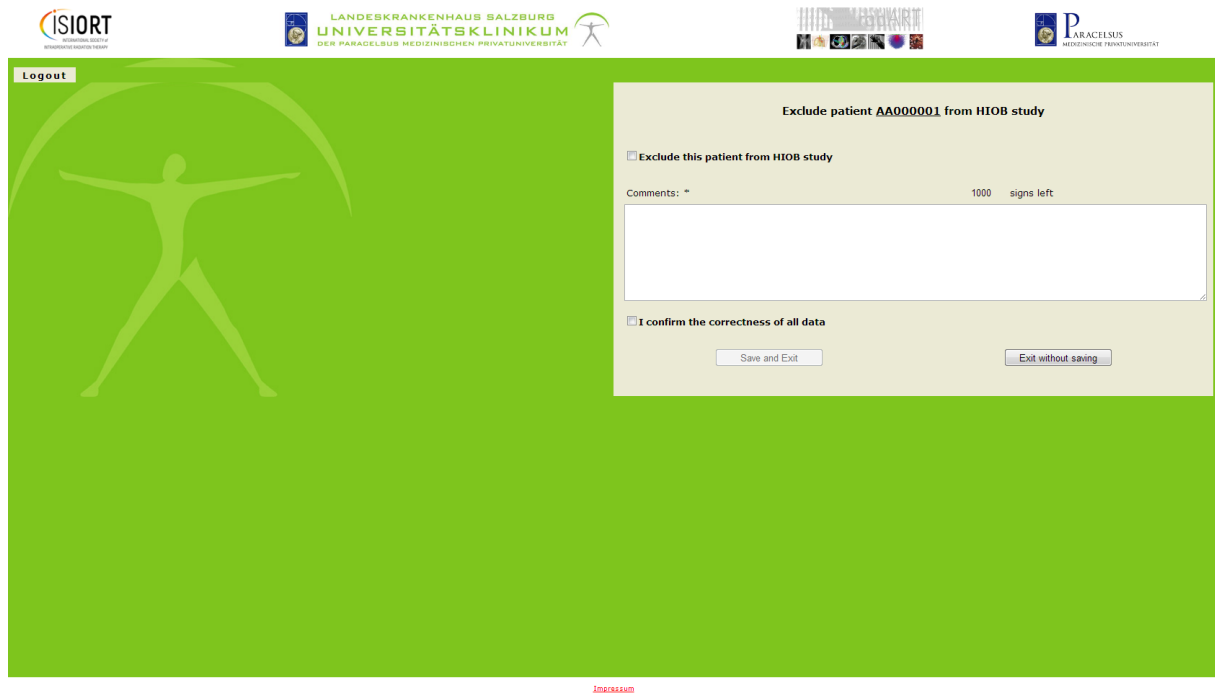

5.10 SAE / SUSAR

In this form, a new SAE / SUSAR Report can be created and send to the HIOB study administrator.

To create a new entry, just decide if it is a SAE or SUSAR report. After commenting the report, the correctness of all data have to be confirmed and by clicking the “save and Exit” button, an email will be send and the data are stored in the database.

Already listed SAE / SUSAR reports are displayed in the text box below.

5.11 Patient exclusion

The screenshot displays the HIOB website interface for patient exclusion. At the top, there are logos for ISIORT, Landeskrankenhaus Salzburg Universitätsklinikum, and Paracelsus Medizinische Privatuniversität. The main content area has a green background with a white Vitruvian Man figure. On the right, a white box contains the following elements:

- Header: Exclude patient **AA000001** from HIOB study
- Checkbox: ☐ Exclude this patient from HIOB study
- Comments section: "Comments: *" with a character count "1000 signs left" and a text input area.
- Confirmation checkbox: ☐ I confirm the correctness of all data
- Buttons: "Save and Exit" and "Exit without saving".

Below the screenshot, the text "Jmuckstaum" is visible in red.

Exclude the patient by checking the checkbox and commenting why the patient should be excluded. Save and exit is only possible, if the confirmation checkbox is checked. If a patient is once excluded from the study, the patient cannot be included again into the study.

Appendices

Please follow the order from appendix I up to appendix XII

APPENDIX I: 0 (OP/ORT) - 2 weeks pre-OP - N/A
APPENDIX II: 1 week post-OP - 1 week pre-WBRT - N/A
APPENDIX III: 6-8 weeks / 6 months post-OP (Week 1 WBRT) - N/A
APPENDIX IV: end of WBRT - N/A
APPENDIX V: 4 weeks post-WBRT - N/A
APPENDIX VI: 4-5 months post-WBRT - N/A
APPENDIX VII: 13 months post-WBRT - N/A
APPENDIX VIII: 2 years post-WBRT - N/A
APPENDIX IX: 3 years post-WBRT - N/A
APPENDIX X: 4 years post-WBRT - N/A
APPENDIX XI: 5 years post-WBRT - N/A
APPENDIX XII: 6 years post-WBRT - N/A
APPENDIX XIII: Finally report at study-end / end of study participation - N/A

Select the patient from the “Search result” and click on “Show appendices” or double click the patient in the search results. Already finished / filled out appendices are green. To edit an appendix, select it in the list and press "edit selected appendix" or double click it in the appendices list.

5.13 Plan exchange

To upload patient specific data to the portal, you have to choose the patient in the search box and press the plan exchange button or go to the URL <http://portal.open-radart.org>. A new window should open where you can upload your plan data. To upload data, several steps must be done which are described below.

The screenshot shows the HIOB website interface. At the top, there is a dark green header with the 'Sign In' link on the right. Below this is a light green banner containing logos for ISIORT (International Society of Intraoperative Radiation Therapy), Paracelsus Medizinische Privatuniversität, and SALK. A search bar is located on the right side of the banner. Below the banner is a dark green navigation bar with 'HIOB' and 'HELP' links. The main content area is white and contains a login form with the following elements:

- Email Address**: A text input field containing '@liferay.com'.
- Password**: A text input field.
- Sign In**: A dark green button.
- Create Account**: A link with a user icon.
- Forgot Password**: A link with a key icon.

5.13.1 Create an account

To create an account, follow the “Create Account” link below the sign in button. If you already have an account, but you lost your password, you have to follow the link “Forgot password”.

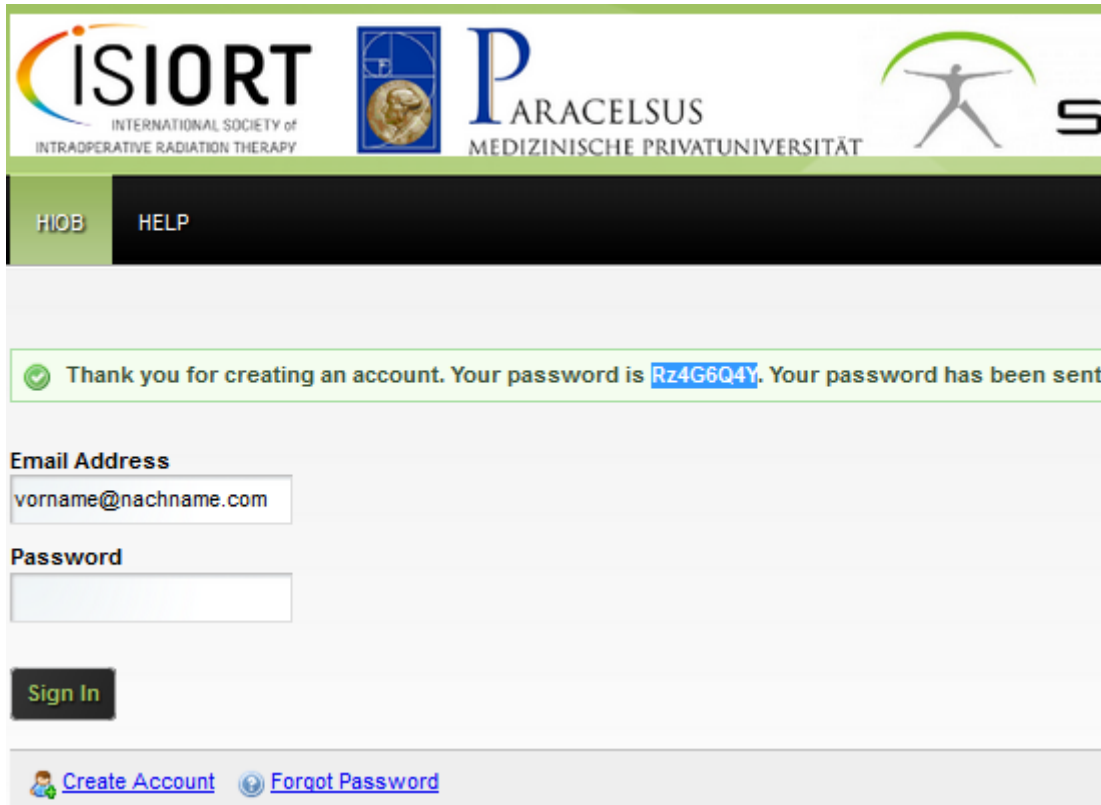

All fields with the extension “(Required)” must be filled out with your personal data. A successful registration needs a valid text verification. In case of any errors, the user will be informed with an error message.

The screenshot shows the registration page of the HIOB website. The header features logos for ISIORT (International Society of Intraoperative Radiation Therapy), Paracelsus Medizinische Privatuniversität, and SALK, along with a search bar. Below the header is a navigation bar with 'HIOB' and 'HELP' links. The main content area contains a registration form with the following fields: 'First Name (Required)' with a placeholder 'Vorname', 'Middle Name' with a placeholder, 'Last Name (Required)' with a placeholder 'Nachname', 'Screen Name (Required)' with a placeholder 'VorNachname', and 'Email Address (Required)' with a placeholder 'vorname@nachname.com'. To the right of these fields is a 'Text Verification (Required)' section showing a distorted image of the number '3261' and a corresponding input field containing '3261'. A 'Save' button is located below the form fields. At the bottom of the form area, there are links for 'Sign In' and 'Forgot Password'.

5.13.2 First login to HIOB-portal and validation of the account

After a successful registration, the user will be guided to the main page where a message with the password is given to the user. This information is also send per mail.
The user can now login into the portal with the email address and the password.

The screenshot shows the HIOB portal interface. At the top, there is a header with logos for ISIORT (International Society of Intraoperative Radiation Therapy), Paracelsus Medizinische Privatuniversität, and a stylized 'S' logo. Below the header is a navigation bar with 'HIOB' and 'HELP' links. A green success message states: 'Thank you for creating an account. Your password is **Rz4G6Q4y**. Your password has been sent'. Below this, there are input fields for 'Email Address' (containing 'vorname@nachname.com') and 'Password'. A 'Sign In' button is located below the password field. At the bottom, there are links for 'Create Account' and 'Forgot Password'.

After the first successful login, the user will be encouraged to change his personal password immediately. Therefore the user has to enter a new password twice.

5.13.3 Sign in to HIOB Portal

Are all the previous steps done, the account is now ready to log in into the portal. Its possible to login in, but the file upload is not available until now. Therefore the account must be assigned to a participant site and activated by the administrator. After this step the user will receive an email and the upload of files will be available.

A second way to come to the login site is to use the link on the very right top „Sign in“. This link will open the standard login page.

5.13.4 File Upload

A prerequisite to upload files is a successfully created user account which is already activated from the HIOB administrator. After the user is logged in into the portal, he will automatically be forwarded to the upload section. If this is not working or the user switched to a different site, there is a way to go manually to the upload page by following the link “UPLOAD” on the main site.

In the case that the user is forwarded from the “HIOB Follow Up” site (<http://www.salk.at/hiob/>) the “Id” field should be prepopulated with the patient ID. The ID can be changed or a new one can be created in this field.

5.13.4.2 Add files

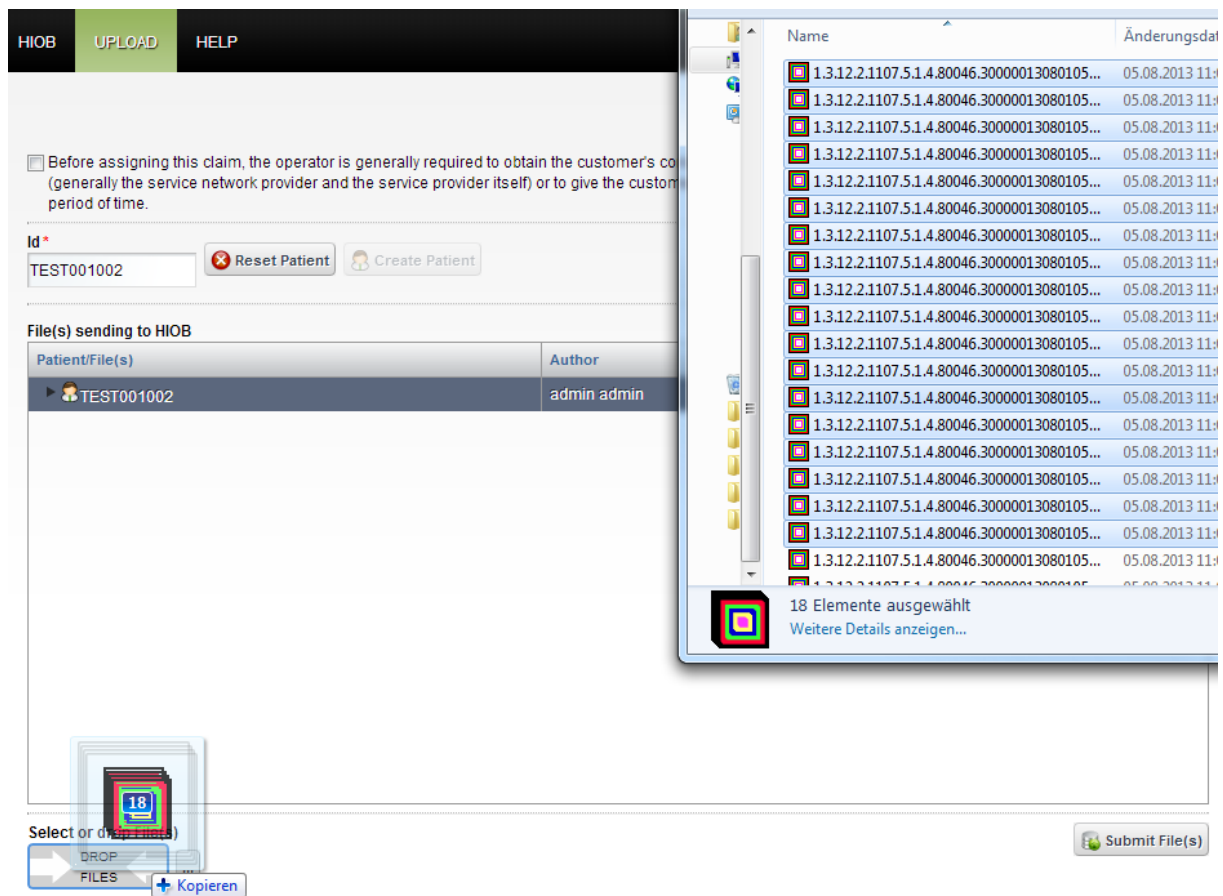

There are two different ways available to add files to the patient.

1) Drag & Drop

Open a windows explorer, navigate to the place where the files which should be uploaded are saved, select the files, drag it to the field “DROP FILES” and drop it.

2) Windows explorer

Next to the field “DROP FILES” is a button, called “...” which opens the windows explorer. You have to navigate to the place of your saved files, select them and press open.

The upload speed depends on your internet connection and the size of the files. The progress can be seen in a small uploadbar above the the “DROP FILES” field as well as on a flashing circle on the right side above the patient list box. Each successfully uploaded file is added to the patient, selected in the patient list box.

5.13.4.5 Log out

After you successfully uploaded the files, and you don't want to proceed with any further patients, you have to log out from the portal. Therefore a link on the very right top called "your firstname your lastname (Sign Out)" i.e. "HIOB admin (Sign Out)" have to be followed.

5.14 Edit selected appendix

The order from “Appendix I” to “Appendix XIII” needs to be followed. If a patient didn’t appear to an appointment, the particular appendix is still to fill out. Therefore, every “yes/no” field needs to be selected as “No” and the others as “Not done”. In that case, it is recommended to comment, why the appointment did not take place.

Different modes for each appendix exist depending on the appendix status. The system differs between following modes:

- **Edit**
The appendix is enabled to be filled out.
- **Not all mandatory fields were totally filled out**
All fields signed with a star are mandatory fields and need to be filled out. Otherwise, proceeding / saving is not possible.
- **Attention: At least one previous appendix is not completed yet! Saving is not possible**
Because, the appendix order must be followed, it is not possible to fill out an appendix if the previous is not filled out. It is possible to view all available choices at the drop down boxes, but saving changes is not activated.
- **Read Only**
If an appendix is once filled out, the content could not be edit anymore. Therefore, the appendix information is displayed in read only mode and it is shown who is responsible for its content.

5.14.2 APPENDIX II 1 week post-OP – 1 week pre-WBRT

In this appendix there are four input fields to exclude the patient automatically from study.

If this values are filled out in the appendix

- **Re-excision after IORT = yes** and / or
- **Secondary mastectomy = yes** and / or
- **IORT: Electron energy [MeV] = not done** and / or
- **Screening error = yes,**

it is possible to save the appendix, but the patient will be excluded automatically and is displayed red in the search results.

5.14.2.1 Edit appendix

The screenshot shows the 'Appendix 2: 1 week post-OP - 1 week pre-WBRT' form in the HIOB website. The form is divided into two main columns of input fields. The left column includes fields for Histology, EIC - positive / DCIS prominent, Multifocality, T, N, Grading, Hormone receptor status (Estrogen Receptor (ER), Progesteron Receptor (PR)), HER2neu, Ki67, Resection status, Re-excision after IORT, Definitive free margins, Secondary mastectomy, Modality for depth calculation of Boost-Target-Tissue, IORT: Electron energy [MeV], and Tube diameter [cm]. The right column includes fields for Volume of D90 (>10Gy) [ml], d (depth of 90% = 10 Gy) [mm], Resected breast-tissue [g], Bevel-angle [°], Lead shielding breast wall, Date of operation, Local complications, Planned chemotherapy, Hormonal therapy, Study entry date, Screening error, and a large text area for Comments. A checkbox 'I confirm the correctness of all data' is located below the comments section. At the bottom right, there are two buttons: 'Save and Exit' and 'Exit without saving'. The form is set against a light green background with a dark green header and footer.

Appendix 4: end of WBRT

Date of follow-up: *

Lab analysis: * Parameters: Blood count, GOT, GPT, GOT CA 15/3, alkal. Phosphatase, Calcium, Creatinine, Potassium

Clinical investigation: *

Toxicity - CTC score: * 0: None
1: Faint erythema, dry desquamation
2: Moderate to brisk erythema, moderate edema, moist desquamation (mostly confined to skin folds and creases)
3: Confluent moist desquamation > 1.5 cm and not confined to skin folds, pitting edema
4: Skin necrosis or ulceration of dermis (full thickness), may include bleeding not induced by trauma

Radiation break: * 0: no statement (unknown)
1: tumor free
2: local recurrence (in-quadrant)
3: local recurrence (out-quadrant)
4: secondary tumor (please comment histology)
5: metastases
6: died of tumor disease
7: died (other causes)
8: regional recurrence parasternal

Status: *

End of WBRT*:

Date of local recurrence:

Date of appearance of distant metastases:

Date of death:

Status at time of death: 1: died of disease/tumor
2: died of secondary tumor (please comment histology)
3: died with tumor (death not caused by tumor)
4: tumor free
5: unknown
6: no statement

5.15 Photodocumentation

Only pictures smaller than 5 MB and in JPG / JPEG (joint picture expert group) format can be uploaded successfully.

The order from “Photodocumentation I” to “Photodocumentation IX” needs to be followed. If a patient didn’t appear to an appointment, the particular photo documentation is still to fill out.

Therefore, please upload a default picture / image which is clearly not a patient picture. If an objective cosmetic score is demanded, select “Not done” (because no image is available).

If you click on the “Durchsuchen” / “browse” / or the synonym in different languages button above each example image an open dialog will be opened. Navigate with this to the location of your patient pictures and click on the wanted image. After that commit your decision by clicking on “Öffnen” / “open” / or the synonym in different languages.

Afterwards, select all four images for the photodocumentation and click on “Save and Exit”. If you reopen this photodocumentation the previous selected images will be previewed. The image upload can take longer regarding to internet connection.

If you want to leave the page without saving changes click on “Exit without saving”.

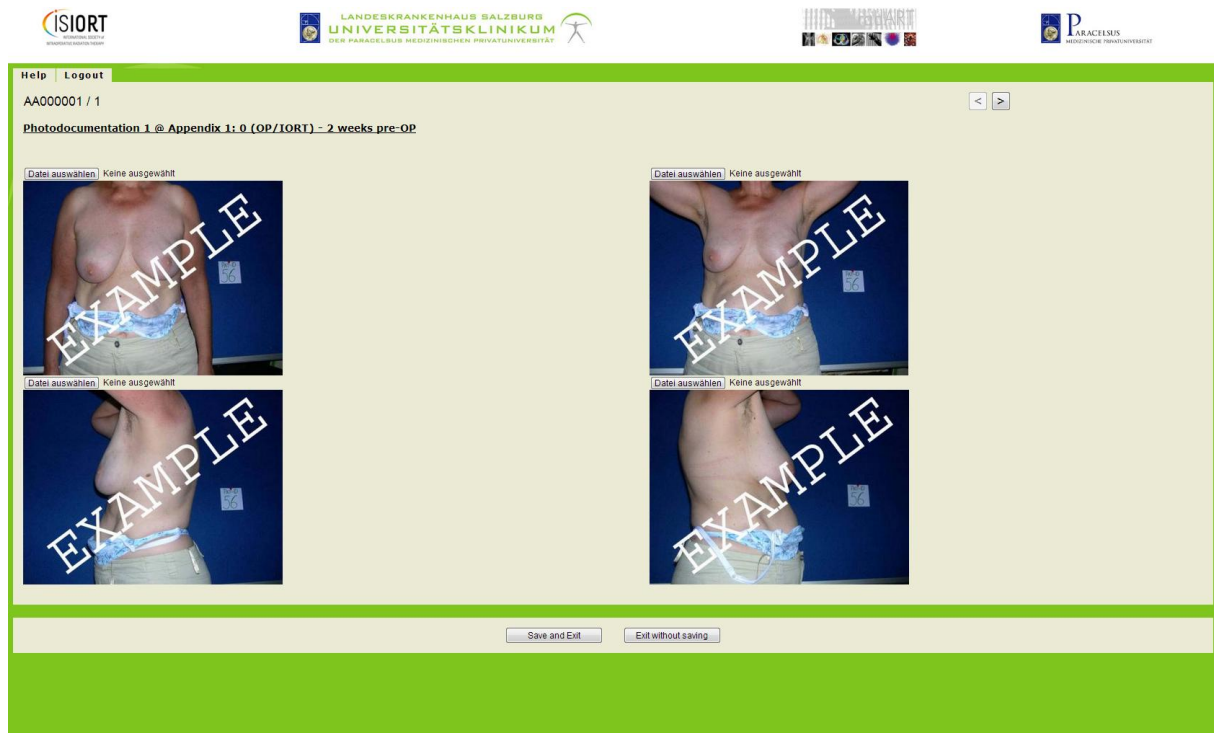

Upload images of different patient arm positions like it is previewed in the example images.

To navigate through the different photodocumentation slides, use the navigation buttons on the upper right corner. If a button is disabled, you are at the first or at the last photodocumentation.

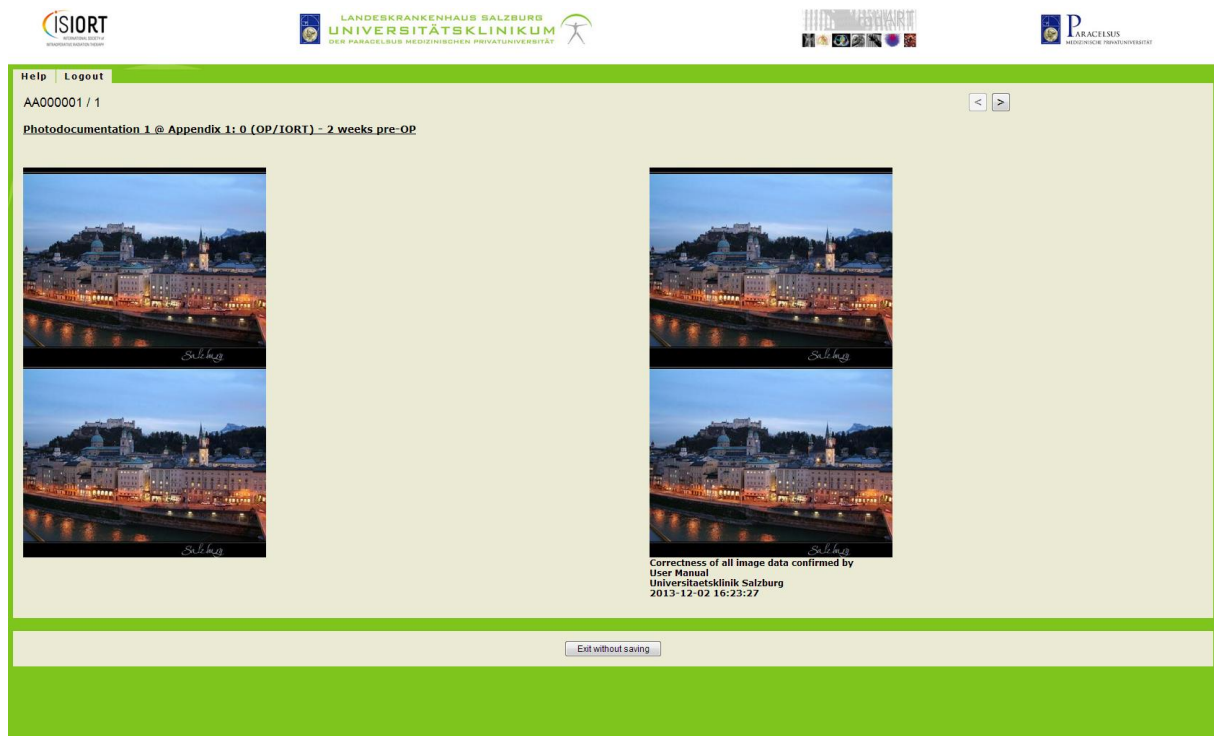

After uploading the patient pictures it is possible to change the objective cosmetic score. Confirm your decision by clicking on “Save and Exit”. If you reopen the just modified photodocumentation you can compare the subjective and objective cosmetic score. If the information is stored once, the content could not be edit anymore.

Cosmetic score subjective:

E1

E0: Excellent: No visible therapy related sequelae
E1: Good: Minimal changes in pigmentation, visible score, loc.telangiectasia
E2: Moderate result: Clear deformation of breast contour, nipple displacement, marked skin changes
E3: Bad result: Severe retraction or fibrosis, severe telangiectasia
E4: Complications: Skin necrosis

Cosmetic score objective:

E1

E0: Excellent: No visible therapy related sequelae
E1: Good: Minimal changes in pigmentation, visible score, loc.telangiectasia
E2: Moderate result: Clear deformation of breast contour, nipple displacement, marked skin changes
E3: Bad result: Severe retraction or fibrosis, severe telangiectasia
E4: Complications: Skin necrosis
